COMPAQ

Cover Letter for Compaq TCP/IP Services for OpenVMS Version 5.3

AV–PU3ZS–TE

April 2002

Dear Customer:

Thank you for purchasing Compaq TCP/IP Services for OpenVMS networking software. The Compaq TCP/IP Services for OpenVMS software product is the OpenVMS implementation of the industry-standard TCP/IP protocol suite and internet services for OpenVMS Alpha and OpenVMS VAX systems.

For a complete description of this product, see the *Compaq TCP/IP Services for OpenVMS Version 5.3 Software Product Description* (SPD 46.46.15).

Features

The Compaq TCP/IP Services for OpenVMS software is based on the Berkeley Software Distribution (BSD) Versions 4.3 and 4.4, with enhancements from Compaq Computer Corporation.

This release of Compaq TCP/IP Services for OpenVMS features the following enhancements:

- Increased IPv6 functionality, including mobile correspondent node support and 4to6 transition
- Support for OpenVMS Extended File Specifications in FTP and NFS
- LPD clusterwide failover
- New IMAP mail server
- NTP Version 4
- BIND Version 9 server
- Kerberos authentication for TELNET connections
- UNIX subsystem configuration

Release Notes

The Compaq TCP/IP Services for OpenVMS Release Notes describes the problems fixed in this release. The release notes are located on the distribution media in the same directory as the software kits. After installation, the text version of the release notes is located in SYS$HELP:TCPIP053.RELEASE_NOTES. A PostScript version is also available in SYS$HELP:TCPIP053_RELEASE_NOTES.PS.

Licenses

The Compaq TCP/IP Services for OpenVMS product offers three licenses:

- Server license. Provides complete product functionality.
- Client license. Provides complete product functionality except for the following server components: NFS server, BIND server, PC-NFS server, remote BOOT server, RMT/RCD server, and IMAP server.
- Client upgrade license. Provides the server components for customers who purchased a client license and who now require full server functionality.

Media Changes (VAX Only)

This version of TCP/IP Services software for OpenVMS VAX (QA-VHRAA-H8) is available on CD-ROM only.
