Read Before You Install: Compaq TP Desktop Connector Version 3.1A for ACMS

AV-PTQ3H-TE

This letter includes information on *Compaq TP Desktop Connector* for *ACMS* that you should be aware of before installing the product. Most importantly, this letter contains your product license key that is required to install and access the product. You should retain this document for future reference.

A standard Software License, purchased separately, is also required for use of this product.

Features and Enhancements

The following is a list of the new features or enhancements that have been incorporated into this release of the product:

- *TP Desktop Connector* for *ACMS* Version 3.1 (ECO 2)
- Items that were previously documented only in the Release Notes have been added into the product documentation set
- All product documentation and media have been brought up to the latest Compaq branding standards

Kit Contents

The following lists the major components of the *TP Desktop Connector* for *ACMS* kit. The term TPware refers to a collection of components that comprise the client portion of the *TP Desktop Connector* for *ACMS* product.

- *Read Before You Install: Compaq TP Desktop Connector Version 3.1A for ACMS*
- *Compaq TP Desktop Connector Version 3.1A Software Product Description*
- TPware Product Suite CD–ROM
- *Compaq TP Desktop Connector* for *ACMS* Gateway CD–ROM
- *Compaq TP Desktop Connector Installation Guide*
- *Compaq TP Desktop Connector Getting Started*
- *Compaq TP Desktop Connector for ACMS Client Application Programming Guide*
- *Compaq TP Desktop Connector for ACMS Client Services Reference Manual*
- *Compaq TP Desktop Connector for ACMS Gateway Management for ACMS*

Release Notes

Prior to attempting to install the product, it is recommended that you read the *Release Notes*. The *Release Notes* contain a summary of the known problems, restrictions and installation-related instructions, as well as new features.

The *Release Notes* for the *TP Desktop Connector* for *ACMS* product are on the TPware Product Suite CD–ROM. The *Release Notes* can be accessed from the following file:

```
dskcon_release_notes.htm
```

The *Release Notes* applicable to the *TP Desktop Connector* Gateway for *ACMS* are on the *TP Desktop Connector* Gateway CD–ROM. The *Release Notes* can be assessed by invoking the appropriate command when running the VMS install procedure. The file names are:

```
acmsdia31.release_notes
```

Installation Information

Read the *Release Notes* and *Installation Guides* for detailed information on how to install the product from the CD–ROMs. These documents also identify any restrictions and how they may apply to your environment.

Refer to the *Compaq TP Desktop Connector Version 3.1 Software Product Description* for prerequisite and optional software requirements.

Client install

The *setup.exe* program will take you step by step through the WIN32® Client install procedure. When making the product selections in the TPware installation, a dialog box appears prompting for the entry of a product license key. The key to access the client is:

Product License Key: 10230-000-0009219-00864

Gateway install

The gateway is installed on your server system enabling access to ACMS. Make sure that the required Product Authorization Key (PAK) is registered and loaded before using the standard VMSINSTAL procedure.
