AV-QZ0OB-TE

April 2000

Please read this cover letter before installing your software kit for Compaq OMNI API for OpenVMS Version 3.1.

Dear Customer,

Congratulations on having purchased the enclosed kit belonging to Compaq's Compaq OMNI API product. Depending on the exact Compaq part number ordered, your kit will be made up of the following components:

- License only for Compaq OMNI API for OpenVMS Alpha
- License only for Compaq OMNI API for OpenVMS Vax
- Documentation only kit, consisting of the following manuals:
  - Compaq OMNI API Installation & Management Guide for OpenVMS
  - Compaq OMNI API/MMS Users Guide
  - Compaq OMNI API guide to using OMNI Directory Services
  - Compaq OMNI OMNIview Users Guide
  - Compaq OMNI ODF Users Guide
- Documentation Kit + binaries on TK50 media

Release Notes

You can print the release notes during installation. The release notes contain various information, including restrictions, incompatibilities and amendments to documentation. Refer to the Compaq OMNI API Installation & Management Guide Installation Guide for OpenVMS for details of how to access and read release notes.
