Please read this cover letter before installing your BASEstar Device Access software kit.

Dear BASEstar Customer,

Thank you for purchasing BASEstar Classic DAS for Allen-Bradley Data Highway V3.4A product. This DAS allows BASEstar applications to connect to shop floor devices in order to monitor and control manufacturing operations, and to automatically distribute manufacturing data collected from these devices throughout a distributed network of BASEstar systems.

For installation instructions, please refer to the Installation and User's Guide packaged with the documentation kits. The release notes also contain installation-related instructions, plus a summary of technical changes, known problems, restrictions, and incompatibilities.
