Software Product Description

PRODUCT NAME: VMS License Management Facility, Version 1.1 **SPD 36.35.00**

DESCRIPTION

This VMS facility allows the system manager to easily determine which software products are licensed on a standalone VAX and on each of the VAX systems in a VAXcluster System. It allows the system manager to select the subset of systems or users in a VAXcluster that may use the software products. LMF also provides an audit trail which allows the system manager to track license changes that occur within a VAXcluster system.

V5.x VAXcluster configurations are fully described in the VAXcluster Software Product Description (29.78.xx) and include CI, Ethernet and Mixed Interconnect configurations.

HARDWARE REQUIREMENTS

VAX, MicroVAX, VAXstation, or VAXserver configuration as specified in the VMS Operating System, System Support Addendum (SPD 25.01.xx).

Block Space Requirements (Block Cluster Size = 1):

Disk space required for installation:	1100 blocks
	563K bytes
Disk space required for use (permanent):	750 blocks
	384K bytes

These counts refer to the disk space required on the system disk. The sizes are approximate; actual sizes may vary depending on the user's system environment, configuration, and software options.

SOFTWARE REQUIREMENTS

For Systems Using Terminals (No DECwindows Interface):

VMS Operating System V5.2 - V5.4

For Workstations Running VWS:

VMS Operating System V5.2 - V5.4
VMS Workstation Software V5.2 - V5.4

ORDERING INFORMATION

Software Media: QA-XANAA-H*
Software Documentation: QA-XANAA-GZ

* Denotes variant fields. For additional information on available licenses, services and media refer to the appropriate price book.

Note: There is no separate license available for this software since it is covered by the license for the VMS Operating System, of which this software becomes part after its installation.

SOFTWARE LICENSING

This software is furnished under the licensing provisions of the VMS Operating System (SPD 25.01.xx) and Digital Equipment Corporation's Standard Terms and Conditions. For more information about Digital's licensing terms and policies, contact your local Digital office.

LICENSE MANAGEMENT FACILITY SUPPORT

The VMS Operating System supports the License Management Facility.

For more information on the VMS License Management Facility, refer to the VMS Operating System Software Product Description (SPD 25.01.xx) or the License Management Utility Manual of the VMS Operating System documentation set.

DISTRIBUTION MEDIA

9-track 1600 BPI Magtape (PE), TK50 Streaming Tape

This product is also available as part of the VMS Consolidated Software Distribution on CDROM.

SOFTWARE PRODUCT SERVICES

A variety of service options are available from Digital. For more information, contact your local Digital office.
