COMPAQ

AV–R83RH–TE

September 2002

Dear Advanced Server and PATHWORKS customers,

The enclosed kits contain two products:

- Compaq PATHWORKS V6.1 for OpenVMS (Advanced Server)

  This OpenVMS layered application provides networking functionally equivalent to that of the Windows NT Server — with additional features.

  PATHWORKS V6.1 for OpenVMS (Advanced Server) supports OpenVMS Alpha Versions 6.2, 7.2-2, 7.3 and 7.3-1 and OpenVMS VAX Versions 6.2, 7.2, and 7.3. Licenses are purchased separately.

- Compaq Advanced Server V7.3A for OpenVMS

  This OpenVMS layered application provides networking functionally equivalent to that of the Windows NT Server — with capabilities that support OpenVMS Version 7.3-1. The product includes several other new features that enhance integration with Microsoft and OpenVMS environments.

  Advanced Server V7.3A for OpenVMS supports only OpenVMS Alpha Versions 7.2-2, 7.3, and 7.3-1. You can upgrade from Advanced Server V7.3 for OpenVMS to Advanced Server V7.3A for OpenVMS before you upgrade your operating system to OpenVMS Version 7.3-1. Or, you can stay on OpenVMS Alpha Version 7.3. Upgrading to Advanced Server V7.3A will give you the most recent maintenance updates. Licenses are purchased separately.

Installation

See the Server Installation and Configuration Guide for your product for instructions on how to install the software; read the on-line release notes for other important notices.

Licensing Information

You must use the Client Access license with PATHWORKS for OpenVMS (Advanced Server) and Advanced Server for OpenVMS software. The order numbers for the Client Access licenses are QM-5SUAA-A*. Upgrades are available for those with licenses for prior versions of PATHWORKS Advanced Server software.

Note: Some new OpenVMS Alpha servers include two new Client Access licenses to let you start using Advanced Server for OpenVMS or PATHWORKS for OpenVMS (Advanced Server) software immediately.

For More Information

If you have any questions regarding Advanced Server for OpenVMS or PATHWORKS for OpenVMS (Advanced Server) software, please visit our InfoCenter or newsgroup or send e-mail:

InfoCenter:	http://www.compaq.com/openvms/
Newsgroup:	news:vmsnet.networks.desktop.pathworks
e-mail:	pwinfo@compaq.com

Thank you for choosing Advanced Server for OpenVMS or PATHWORKS for OpenVMS (Advanced Server) software as your networking solution. As always, we welcome your feedback.
