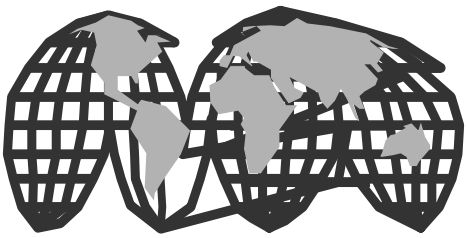
Part number: AV–PKTQF–TE

TeamRoute for ALL-IN-1 Version 1.3A

digital™



Read before installing

What's in the kit

This kit contains TeamRoute™ for ALL–IN–1™ Version 1.3A. You can install this software on ALL–IN–1 Version 3.2 running either on an OpenVMS™ VAX™ system or on an OpenVMS Alpha system.

The kit includes an Installation and System Management Guide. This contains:

- ❏ Descriptions of the main changes made to TeamRoute for ALL–IN–1 Version 1.3A since Version 1.3
- ❏ Information about installing TeamRoute for ALL–IN–1 Version 1.3A
- ❏ Information about managing TeamRoute for ALL–IN–1 Version 1.3A

How to access the installation instructions

The Installation and System Management Guide is provided in the form of printable files in save set TMRA1_A013.F on the distribution media. These files are:

TMRA1_A013_INST_MGT.PS	PostScript®
TMRA1_A013_INST_MGT.TXT	ASCII text

To access the Installation and System Management Guide, use the Backup utility to copy the documentation files from the save set to a directory on your OpenVMS system, then print the file that you require.
