DEC/EDI™ for Compaq™ UNIX®, V3.2B

Cover Letter

Order Number: AV-Q8WWG-TE

Introduction

Thank you for purchasing DEC/EDI Version 3.2B. The software and documentation that you have received consists of both Application Client and Server components for Compaq UNIX.

You should use the software from this product if you want to:

— Install both the DEC/EDI Application Client and Server for Compaq UNIX on the same node, or

— Install the DEC/EDI Server for Compaq UNIX on one node, and use one or more remote DEC/EDI Application Clients on other nodes within the same network.

— Install the DEC/EDI Application Client for Compaq UNIX on one node, for use with one of the following DEC/EDI Server systems running on another node within the same network:

- DEC/EDI for Compaq UNIX, Version 3.0 or higher
- DEC/EDI for OpenVMS™ Alpha, Version 2.1A or higher
- DEC/EDI for OpenVMS VAX™, Version 2.1A or higher

The following versions of DEC/EDI Application Client can interperate with a DEC/EDI Server running this product:

- DEC/EDI Application Client for OpenVMS Alpha, OpenVMS VAX, HP-UX®, IBM® AIX®, Version 2.1A or higher.
- DEC/EDI Application Client for Sun® Solaris®, Version 3.1.
- DEC/EDI Application Client for Compaq UNIX, Version 3.0 or higher.

DEC/EDI V3.2B uses TCP/IP sockets based protocol as its method
of communication between the server, remote clients and DEC/EDI CommandCenter.

Prior to installing this product, you must install DEC/EDI CommandCenter Version 3.2B on any PC that will be used to access or configure the DEC/EDI Server system.

If you are upgrading from any previous Version of DEC/EDI, you must also upgrade any existing Cockpit installations to Version 3.2B.

If you are not familiar with the DEC/EDI product, you are recommended to read the *DEC/EDI: Introduction* book supplied as part of the documentation for the Server that you are using. This book provides an overview of the main components of the product, and describes how the product is intended to be deployed.

Notes for DEC/EDI V3.2B

The software installation kit should be installed using the UNIX *setld* command. Refer to the *DEC/EDI: Installation* book (for DEC/EDI V3.2) for instructions on performing an installation.

The media on which you received the software also contains PostScript® (.PS) and text (.TXT) copies of the following documents:

- Cover Letter (this letter)
- DEC/EDI: Installation

- Software Product Description (SPD)
- Release Notes

You can find these documents in a *.../dedi320/documentation* subdirectory on your distribution media.

Before installing or using the software in this kit you are recommended to read the release notes.
