DECnet™ SNA Gateway for Channel Transport

AV-LU41F-TE

Dear Customer:

This kit contains the DECnet™ SNA Gateway for Channel Transport Version 2.2 software and the user documentation from Version 2.1 (the documentation did not need to be revised for Version 2.2). Please check the bill of materials to see that all the items listed are in your distribution kit. If any item is missing or damaged, please contact your Digital Equipment Corporation representative.

DECnet SNA Gateway for Channel Transport Version 2.2 supports OpenVMS™ Alpha and OpenVMS VAX™ Version 6.2 or higher.

The DECnet SNA Gateway for Channel Transport documentation set includes the following:

- *DECnet SNA Gateway for Channel Transport Installation (AA-MA07E-TE)*
- *DECnet SNA Gateway for Channel Transport Guide to IBM® Parameters (AA-LU36E-TE)*
- *DECnet SNA Gateway for Channel Transport Problem Solving (AA-LU37E-TE)*
- *DECnet SNA Gateway for Channel Transport and Gateway for Synchronous Transport Management (AA-LU43E-TE)*

In most cases, the DECnet SNA Gateway for Channel Transport software operates the same on OpenVMS Alpha and OpenVMS VAX systems. Any exceptions are noted in the release notes. DIGITAL™ recommends that you read the release notes for any technical issues before you begin installation. You can access the release notes by responding to the prompts at the beginning of the installation procedure, before you begin to install the software.

To install the product, enter the following command:
$ **@SYS$UPDATE:VMSINSTAL SNACSA022** *device-name* **OPTIONS N**

If you need to order additional documentation, contact your DIGITAL sales representative or refer to the ordering information in the *Software Documentation Product Directory*.

If you have comments about this product's documentation, please complete and return the postpaid, preaddressed Reader's Comments Form at the back of each manual.
