DIGITAL SNA Domain Gateway

AV-PQCCD-TE

Dear Customer,

Thank you for purchasing the DIGITAL SNA Domain Gateway software product (Domain Gateway). This package contains the Domain Gateway V2.1A software and V2.1 documentation. Check the bill of materials to be sure your distribution kit contains all the items listed. If any of the items are missing or damaged, please contact your DIGITAL representative.

Before installing the product, please take a few minutes to read the Domain Gateway software release notes. For DIGITAL UNIX installations, you can find the release notes on the distribution disk in the directory */snapu5210/documentation*. Refer to the *DIGITAL SNA Domain Gateway Installation (DIGITAL UNIX)* manual for information on mounting and installing this directory. For OpenVMS installations, you can use the VMSINSTAL program to copy the release notes from the distribution media. Refer to the *DIGITAL SNA Domain Gateway Installation (OpenVMS)* manual for information on accessing the release notes using VMSINSTAL.

NOTE

You must install the LMF PAK prior to installing the product. If you do not do this, the IVP will fail at installation time. Refer to the Domain Gateway installation guides for information on installing the product PAK.

For complete information on the product, refer to the DIGITAL SNA Domain Gateway Software Product Description (SPD 38.69.03). On the DIGITAL UNIX distribution media, the SPD is located in the directory */snapu5210/documentation*.
