DECforms Asian V3.3 Kit Description

This kit updates DECforms V3.2.

Installation Overview

This kit installation will perform a complete replacement of all existing DECforms components.

To install V3.3 invoke the VMSINSTALL command procedure, as described in the *OpenVMS System Manager's Manual*, and follow the instructions in the *DECforms Installation Guide for OpenVMS Systems*.

NOTE

During installation of the V3.3 Asian kit, the release date displays as 2000 rather than 2003. This has no effect on the installation.
