Read Before Installing the CDA Converter Library Version 2.2

The CDA™ Converter Library is a collection of format converters that allows users of different applications to exchange data easily. The format converters allow users to exchange document, table, graphics, and image files from an application format, so that the files can be read by, and written to different applications and formats. The CDA Converter Library is used with CDA Run-Time Services, including the CDA Viewer, and CDA compliant applications such as DECwrite™. The supported formats are text, table, graphics, and image data.

Whether you are a new or a continuing CDA customer, please read the following information about the CDA Converter Library Version 2.2.

Installation Information

The CDA Converter Library Version 2.2 has the following installation requirements:

- OpenVMS™ Operating System V5.0
- DECimage™ Application Services V2.0 or Version 3.0 (when using TIFF or MacPaint®)
- DEC GKS™ V4.2 for OpenVMS (Runtime System - when using the Graphics Hardcopy converter)
- Digital's Image Applications Services (DAS) V3.0 or later - when using the Graphics Hardcopy converter. DAS V3.0 is distributed as part of the Motif kit.

CDA Run-Time Services V1.0 Kit Included with the Converter Library V2.2

The Converter Library V2.2 installation kit includes the CDA Run-Time Services V1.0 kit for the CDA base components such as the CDA Viewer and the CDA toolkit. The Converter Library V2.2 installation procedure automatically installs the CDA Run-Time Services kit if your CDA base software needs to be updated.[1]

Before you install the CDA Converter Library Version 2.2 on OpenVMS, you must register and load the Product Authorization Key (PAK) provided in the kit. See the *OpenVMS License Management Utility Manual* for registration instructions.

Release Notes Information

Read the release notes before installing the CDA Converter Library on OpenVMS as follows:

- Invoke VMSINSTAL
- Select option N if you want to view online or print the release notes
- Follow the instructions to start the installation procedure

You can also read the release notes after installing the CDA Converter Library on OpenVMS by typing or printing the following file:

```
SYS$HELP:CDACVTLIB022.RELEASE_NOTES
```

™ CDA, DEC GKS, DECimage, DECwindows, DECwrite, OpenVMS, and the DIGITAL logo are trademarks of Digital Equipment Corporation.

® MacPaint is a registered trademark of Claris Corporation.

[1] If you have a non-Motif version of DECwindows™ currently installed, CDA Run-Time Services V1.0 will not be installed.

Contents of This Kit

The following items are contained in this kit:

- **Bill of Materials (BOM)**

  Please read the Bill of Materials (BOM) enclosed in this kit and make sure that all items listed are actually in your kit. If your kit is damaged or any items are missing, call your Digital representative.

- **Media**

  If you ordered media, you will find the media and the *CDA Converter Library Installation Guide* in this kit. Consult the *CDA Converter Library Installation Guide* for information about installing the CDA Converter Library on your system.

- **Sample Options Files**

  Online descriptions of the options for each converter are documented and packaged in this kit as sample options files. You can modify or create your own options file from the default processing options contained in the sample options files.

- **Documentation**

  Depending on your order, this kit may include copies of the following CDA Converter Library documentation:

  — *CDA Converter Library Installation Guide* (included with the media)

  — *Using the CDA Converter Library*

  — *Technical Guide to the CDA Converter Library*

  — *Conversion Messages Guide* (online information only)

- **Product Authorization Key (PAK)**

  The PAK contains information necessary to register the CDA Converter Library before you install it on an OpenVMS system.

- **Software Product Description (SPD)**

  The SPD provides an overview of the CDA Converter Library kit and its features.

- **Software Performance Report (SPR)**

  Use this form to report any problems with the CDA Converter Library, provided you have purchased warranty services.

A Final Note

Digital prides itself on responding to customer needs. In order to continue serving you, we need your comments. Each manual contains preaddressed, postage-paid Reader's Comments forms at the back. If you want to make comments or suggestions about the manuals, please fill out the Reader's Comments forms and send them to Digital.
